When will I find out if my patient is approved?

Once we receive the completed application, we will make an enrollment decision within two to five business days. Both you and your patient will receive a letter notifying you if your patient has been enrolled or denied.

How much medication will my patient receive?

Patients are typically enrolled in the Foundation for one year. Unless otherwise noted on your prescription, enrolled patients will receive product for one year with shipments occurring monthly for the first three months and then quarterly for the remaining number of refills.

How will my patient receive medication?

ENBREL will either be shipped directly to the patient or to your office on behalf of the patient, depending on what you indicated on the prescription. A Foundation agent will contact the patient or your office as appropriate to confirm the shipping address and schedule the shipment.
